Waynesville R-VI School District	1501 State Road F, Waynesville, MO 65583	<p>The Waynesville R-VI School District has a FEMA shelter is at East Elementary and designed to protect East's students.</p> <p>Here is the official information from school workers about the safe room:</p>

		<p>“It is not considered private; however, the District is only required to operate it as a safe room during tornado warnings that occur during school hours or school functions during evening hours.</p> <p>Your safe room is designed only for the population of the school building. Per the approved grant application, only the school population (students, staff and visitors) were accounted for in the calculations to determine the size of the safe room. No area residence that might live within the 5 minute walking distance of the safe room were accounted for. This is allowed by FEMA, hence its approval, and many other safe rooms in Missouri operate under similar conditions. Therefore the District is only required to operate it as a safe room during tornado warnings that occur during school hours or school functions during evening hours. The district is not required to open the safe room to the public as the safe room is designed for a specific population and allowing area residents in during the day could possible overload the designed occupancy of the safe room.</p> <p>It is not considered “private”, all safe rooms are designed for a specific population. In your case that population is just those located on campus.”</p>
Clearwater R-1 School District	825 North Main Street, Piedmont, MO 63957	
Eldon R-I School District	407 East 15th Street Eldon, MO 65026
